

BOX LID

Exploding Box

You will need:

A4 paper or cardstock

Scissors

Adhesive: double-sided tape,
or glue

Print the PDF onto A4 paper or cardstock. If you print onto paper, we suggest you then stick it onto cardstock to make it sturdier.

Cut out each shape along the solid lines (Box Lid, Outside, Layers 1 to 3). Score and fold on all the dashed lines.

BOX LID: Cut along the 4 solid lines in each corner to create 4 tabs. Stick each tab to the underside of the one next to it to create the sides of the lid.

BOX: Stick the Outside (pattern side facing down) and Layer 1 (pattern side facing up) together completely. Stick Layer 2 (pattern side up) to the centre of Layer 1 (pattern side up). Stick Layer 3 (pattern side up) to the centre of Layer 2 (pattern side up). Fold all of the sides upwards, and put the lid on top to create your box.

EMBELLISH: Cut out the additional sentiments and embellishments and stick them to the different layers of your box.

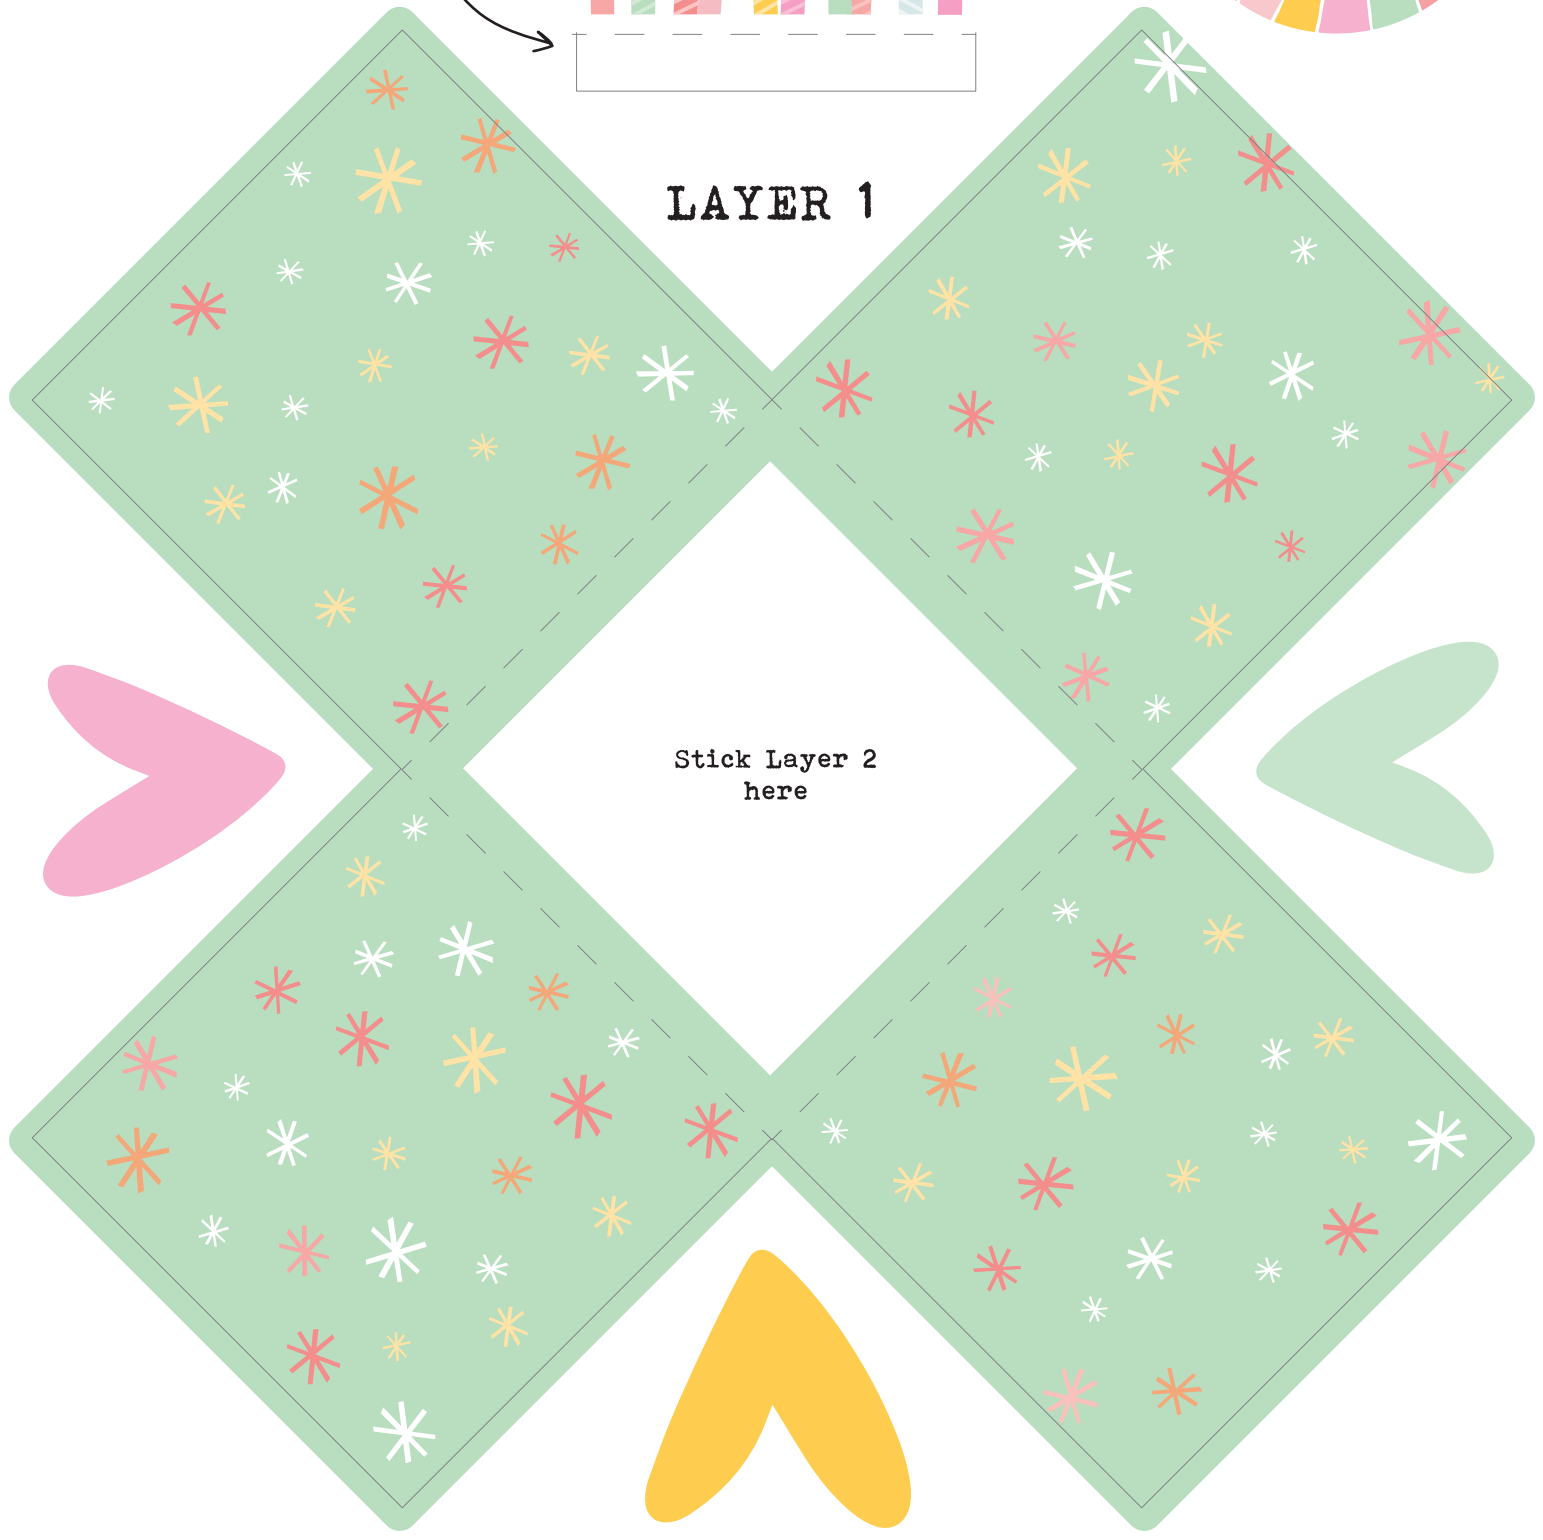

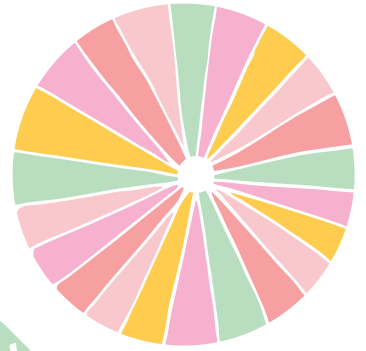

Add other items from our Celebrate You collection for that extra touch!

Love from the team at Rosie's xx

MAY YOUR
DAY BE
FILLED WITH
CAKE, CANDLES
& CONFETTI

Cut out and then fold here
to create a flap for a
pop-up shape effect

LAYER 1

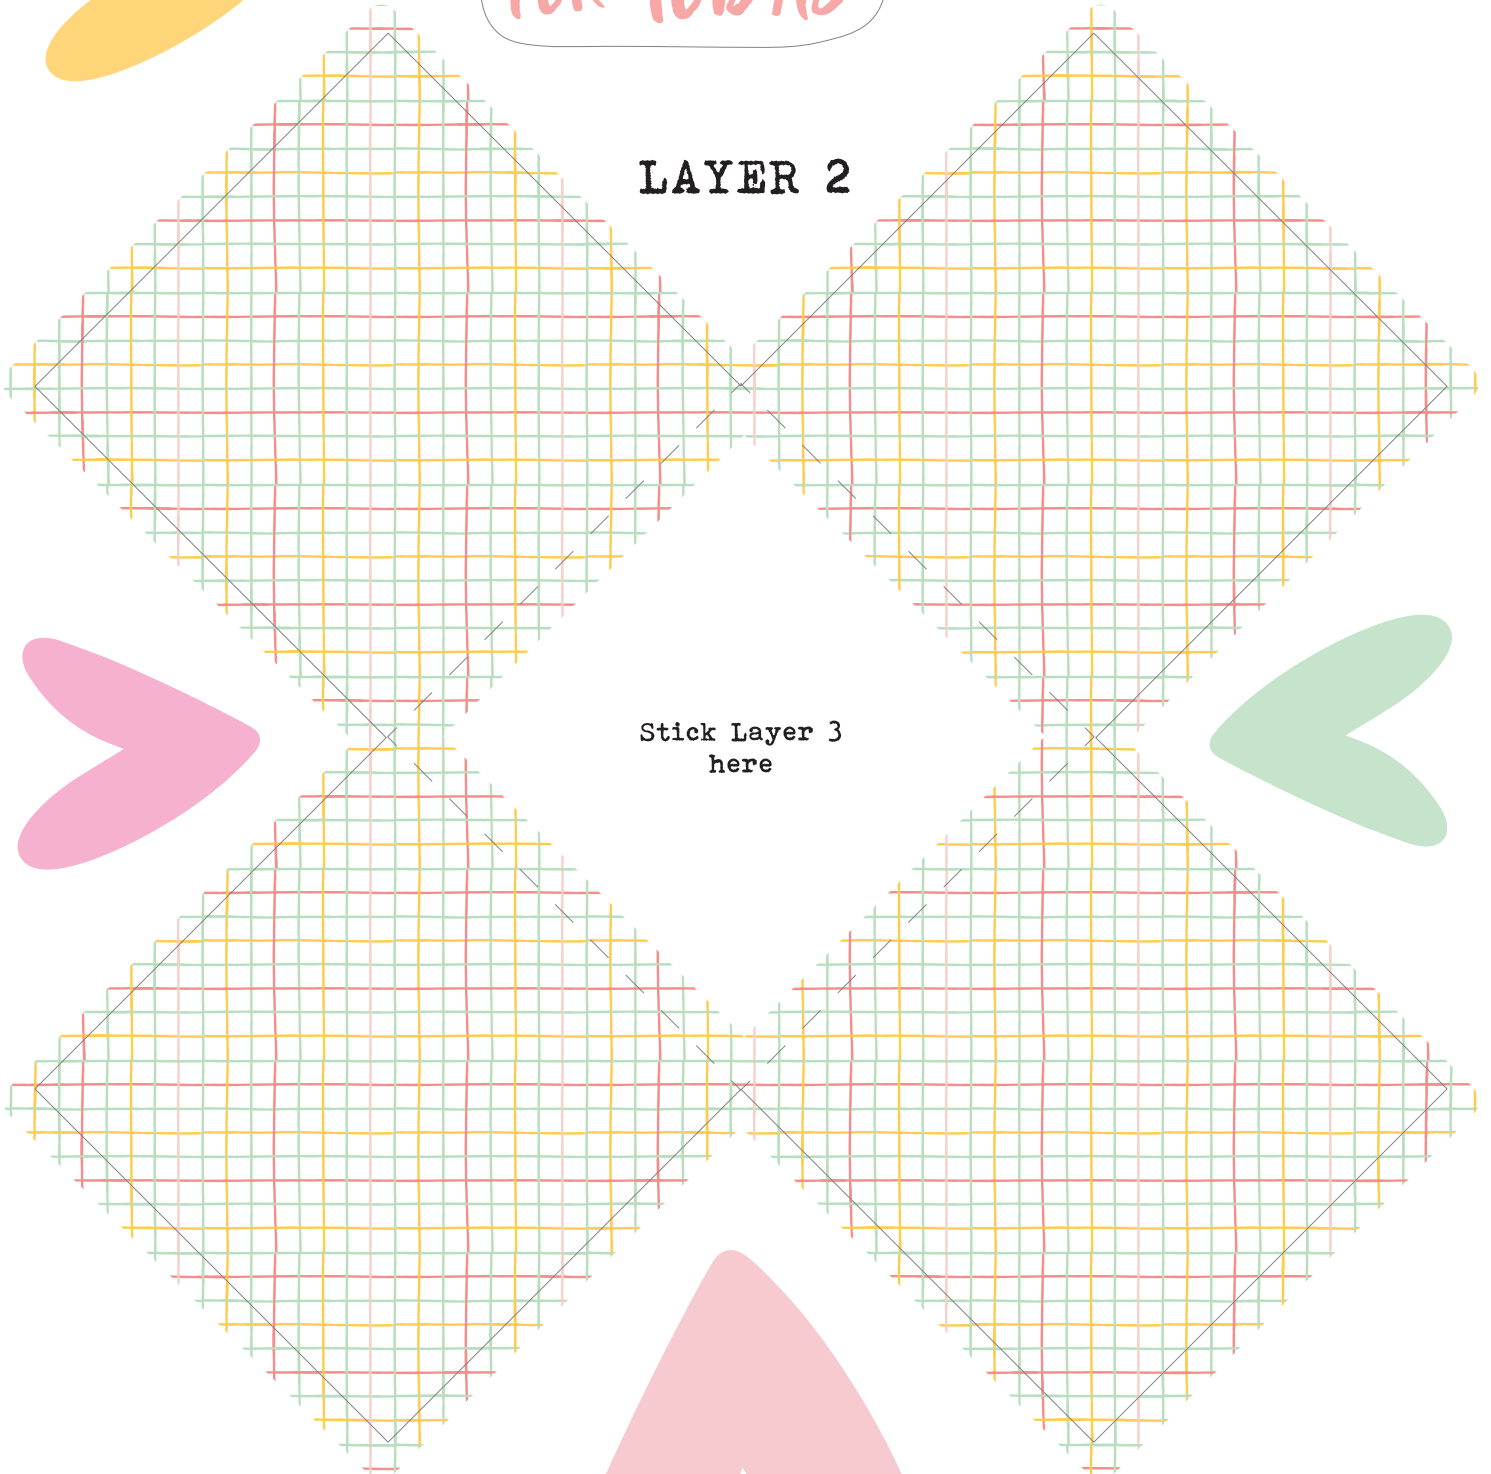

Stick Layer 2
here

BEST WISHES **CELEBRATE** **STILL GOT IT**

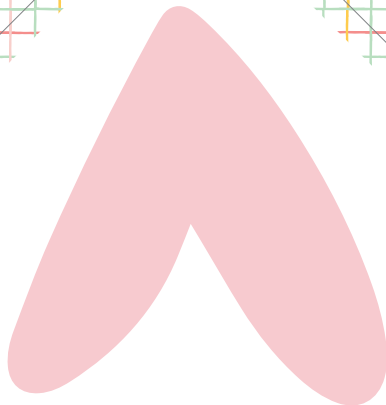

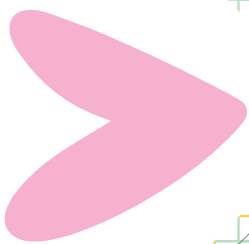

YAY
FOR TODAY

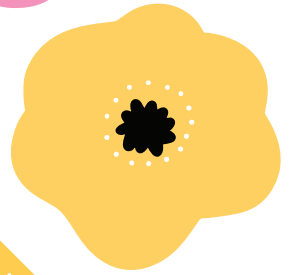

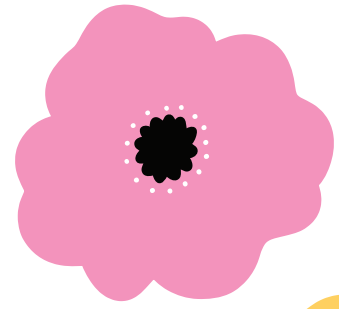

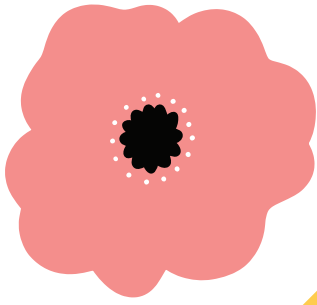

LAYER 2

Stick Layer 3
here

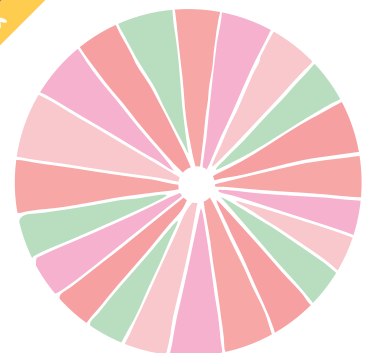

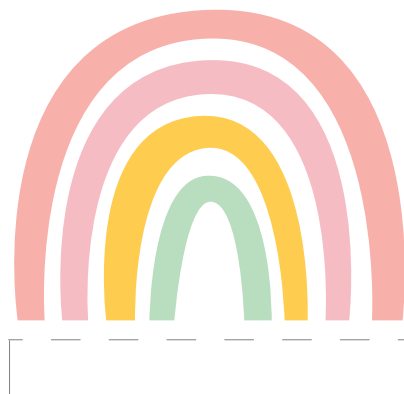

LAYER 3

Cut out and then fold here to create a flap for a pop-up shape effect

It's a confetti kind of day

hooray
hooray
